

TransBioMed

Journée Jeunes Chercheurs FR TransBioMed

Thursday 14th June 2018

9h30 *Introduction*

9h45 - *Oral Presentations – Session 1*

- 10h15
- **Loyal Massara** - Anti-tumor activity of murine cytomegalovirus on human tumor cells
 - **Julien Meca** - Avidity-driven polarity establishment via multivalent anionic lipid-Cdc42 module interactions

10h15 - *Poster Session & Coffee*

11h00

11h00 - *Guest speaker*

12h00 **Agnès Bru et Audrey Tarricone**, GRIC, Bordeaux
Innovative Nanostring possibilities on the Translational Clinical Platform

12h00 - *Oral Presentations – Session 2*

- 12h30
- **Agathe Gremard** - Cartographie des propriétés mécaniques de la membrane amniotique humaine
 - **Pauline Henrot** - Implication of CCN3 in the vasculopathy of Systemic Sclerosis patients

12h30 - *Lunch*

13h30

13h30 - 14h *Poster Session*

14h - 15h *Guest speaker*

Irina Krier, SOPHiA GENETICS, Switzerland
Democratizing Data-Driven Medicine

15h - 15h30 *Oral Presentations – Session 3*

- **Florence Lichou** - Identification and Characterization of the Apoptosis Regulatory Factor, BCL-RAMBO, Associated with Imatinib Resistance in Chronic Myeloid Leukemia Patients
- **Joana Ropio** - hTERT genetic variants and somatic alterations in Cutaneous T-cell Lymphomas

15h30 - *Poster Session*

16h15

16h15 - *Oral Presentations – Session 4*

- 16h45
- **Camille Tiffon** - Etude de la voie de signalisation HIPPO/TAZ lors de la carcinogénèse gastrique induite par l'infection à Helicobacter Pylori
 - **Priscilla Kaulanjan-Checkmodine** - Pericytes from the skin tumor named Infantile Hemangioma regulate vessels formation in vitro

16h45 - 17h *Dominique Dutscher*

17h - 17h20 *Jury Deliberation & Prizes*

17h20 *Aperitif*
